#### *To the Citizens of Deerfield:*

Our forest lands represent a substantial proportion of the town's valuation. They provide income to our citizens, from the sale of forest products and through employment to woods workers. The protection of our forest lands is essential to the continued welfare of the town. Fire is the forest's worst enemy. It not only destroys the growing crop but leaves the land in such condition that nothing of value will

grow for a long period of years. In addition it costs good tax money to extinguish forest fires.

An analysis of forest fire records indicate that 97 per cent are man-caused and consequently avoidable. Carelessness and failure to comply with reasonable regulations governing the building of fires in and near woodlands has been costly to both towns and individuals. Through elimination of the human equation, forest fire losses would be reduced to a minimum. This is possible if every citizen would be careful, familiarize himself with burning regulations, comply with them and then use proper discretion.

We have been particularly fortunate in this town since the hurricane in not having had more serious fires. This is due in part to the strictness of our wardens in issuing permits and splendid cooperation on the part of the public. Great care is needed because conditions in our blown-down areas are more critical with down material drying out and becoming more highly inflammable. *The continued cooperation of every one is necessary.*

We should all remember that:

1. *Written permission of the local forest fire warden to burn brush, rubbish or other debris in or nearer woodlands or where fire may be communicated to woodlands is necessary when the ground is not covered with snow.* Violation of this requirement makes the responsible party liable:

- a. To a fine not to exceed five hundred dollars or imprisonment of not more than one year or both.
- b. To the town for expenses incurred by the warden or deputy warden in attending or extinguishing such fire.
- c. For damages to abutting owners if the fire runs onto the abutters' property.

2. It is a violation of the forest laws of the state to:

- a. Drop or throw any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire, from any vehicle while the same is upon a public highway or private way.

- b. Drop, throw or otherwise deposit on or near woodlands any lighted match, cigar, cigarette, live ashes or any other substance liable to cause a fire.

Violation of these prohibitions penalizes whoever is found guilty by a fine of \$25.00.

3. You should promptly notify your local forest fire warden of any fires you see.

4. The forest laws are being more strictly enforced each year.

Your cooperation will save the warden considerable worry; you and your town much trouble and expense.

The 1940 fire record for our town follows:

Number of fires	4
Acreage burned	26 $\frac{1}{4}$
Cost of suppression	\$169.22
Number of permits issued	58

LEON W. HARVEY,  
*Forest Fire Warden.*

## THE PHILBRICK FUND

---

The Philbrick Fund is now the only fund handled by the selectmen. There have been some changes in the various items and a statement of the several amounts and the income from them follows:

In town treasury, \$1,701.25 yielding  $3\frac{1}{2}\%$ .

In Amoskeag Savings Bank, \$1,200 yielding  $2\frac{1}{2}\%$ .

This amount (\$1,200) was derived from the sale of Manhattan Beach Railroad Stock.

During the year 1928 the Liberty Bond matured and this amount, \$150, is included in the amount \$1,701.25.

One fourth of the income of this fund is payable to the school district for No. 1 school and the remainder, after paying for the care of the Philbrick cemetery, is payable to the trustees of the Philbrick-James Library.
